

SMARTCHOICE

You Manage the Business. We Connect It.

Future Ready Communications Built For Financial Institutions

Financial institutions operate in an environment where trust, speed, and compliance are non-negotiable. To keep pace, technology leaders need communication infrastructure that is secure, reliable, and built to evolve. SmartChoice delivers tailored solutions that unify security, regulatory compliance, and network performance—helping firms streamline operations, reduce risk, and scale efficiently.

Solving Your Challenges

Data Security & Compliance
(FINRA, PCI, HIPAA, GDPR)

Reliable Network Uptime
For Uninterrupted trading & operations

Modern Infrastructure
Tailored for finance specific needs.

Our solutions include a suite of proprietary features designed to address the challenges faced by financial companies:

TLS/SRTP Encryption

Safeguard communication channels to ensure the confidentiality of sensitive information.

Microsoft Teams Integration

Seamless integration to deliver a secure, enterprise-grade voice solution built for financial institutions.

Shared Line Appearances

Monitor, manage, and place calls on behalf of specific extensions directly from their desk phone.

Trader Line Call Barging

Enables real-time monitoring of trader lines by authorized personnel to ensure adherence to internal policies and regulatory standards.

Ring-Down Lines

Integration with **IPC and Flexenet** enables dedicated, secure lines for instant communication with floor traders, accelerating decision-making.

Global Relay Integration

Ensure complete communication archiving to support FINRA compliance, regulatory requests, and internal investigations.

CONSOLIDATION. STANDARDIZATION. SCALABILITY.
Everywhere You Grow.
